THE MIDDLEMARCH MURDER

After the Murder Walter Robb Had His Victim.

WEARING THE DEAD MAN'S WATCH

Did John Henderson Assist in the Killing?

Important New Evidence Obtained by the Authorities That Tends to Show That Suspected Men Were Principals in the Crime—Dramatic Testimony As to Admissions Made by John Henderson.

Toronto, Jan. 2.—Detective John Murray returned last night from St. Thomas, where he had been called out on duty on the Middlemarch murder case. Since the late John Henderson's arrest, the coroner's jury returned a verdict of murder against William D. Water and John Henderson, but the jury was unable to reach a verdict on the charge of accessory before the fact, many important facts being left in doubt.

The late John Henderson was seen by the coroner's jury with the murder of William D. Water, and the late John Henderson was seen by the coroner's jury with the murder of William D. Water.

Not the least important of these discoveries was the fact that John Henderson was seen by the coroner's jury with the murder of William D. Water.

Mr. J. A. Chubb

A Marvelous Medicine

Whenever Given a Fair Trial

Hood's Proves Its Merit.

The following letter is from Mr. J. A. Chubb, architect, and surveyor, No. 124 St. James Street, Montreal, Canada:

"Gentlemen—I have been taking Hood's Sarsaparilla for about six months and am now feeling much better than I have for some time. Last May my weight was 132 pounds, but since then it has increased to 145 pounds."

Welcome 1895....

1 Change our advertisements Daily and make them worth reading.

2 Sell better goods if we can, sell goods cheap—er if we can, and sell more goods if we can.

3 Right here we will quote a few lines from Will Carleton. They're good in regard to the future

Glad should be checked with only play, But no sex by dressing modestly, One for the future all you can, Then let it do the work.

OUR Holiday Sale

STILL GOES MERRILY ON!

Books have sold readily and are giving great satisfaction. A choice lot
of titles and bindings still to choose from. As a proof of the genuineness
of our Holiday Sale your friends can tell you the bargains we're giving—
they've been here.

Onyx and Brass Goods,

Lamps, Tables, Cabinets, Mirrors—elegant designs—superior mechanical
construction—acquired in the best possible manner—no scouring—no
cleaning—a soft feather duster or a chamois skin all that is necessary to
make them retain their lustre and brilliancy for an age.

Pictures

Sold only fairly well; strange to say. All should have sold in a day at the
prices we are asking for them.

We do not usually sell below cost—'twould seem ridiculous to say we
do in an advertisement. When we do say so we mean every word of it, and
in this one line—**PICTURES**—in order to clear them all out, they are all
marked 25% below actual cost, or at half price. Just think of it!

SIR JOHN'S FUNERAL

45,000 Visit the Chamber
Where the Body Lay.

ORDER OF TO-DAY'S PROCESSION

The Provincial Building Crowded from
Morning Till Night by Citizens Anxious to
Pay Their Last Respects—Additional
Floral Tributes—Pontifical Requiem
Mass—Today—Archbishop Officially
Present.

Belleville, N.S., Jan. 3.—The Legislative
Chamber was opened to the
public at 5 o'clock yesterday, and not
withstanding the cold snap which
succeeded Tuesday's storm, the approach
to the building had been crowded with
people all the forenoon, patiently wait-
ing their turn to get in. The thousands
who have already viewed the casket
which contains the remains of Sir John
Thompson.

The casket has gold mountings and
on the cover a gold cross and heavy
shield, the shield being of the following
description:—The shield is divided into
four quarters. The top quarter is blue
with a gold cross. The bottom quarter
is red with a gold cross. The left quarter
is white with a gold cross. The right
quarter is white with a gold cross.

The Right Hon. Sir J. S. Thompson,
K.C.M.G., M.P., Q.C., Premier and
Minister of Justice of Canada, died at
Windsor, Canada, 12th December, 1894,
aged 65.

The doors of the Provincial building
were closed at 10.30, and up to that
hour the immense crowds of people an-
gling to get in, and the thousands who
were waiting outside, were not allowed
to gain upon the casket of the late
Premier had diminished in number.

It is estimated that from 30,000 to 45,000
persons passed through the doors
of the building yesterday.

The city is already crowded with
visitors from all parts of the country.
Last night Governor Howland, Chief
Justice Sullivan, Bishop McDonald, Sen-
ators Ferguson and others, arrived from
Prince Edward Island.

The members of Parliament of the
Lower Provinces are here. Hon.
Horne, Foster, Gosselin and others ar-
rived on a heavy India special train this
morning.

The city is filled with visitors, and it
is with the greatest difficulty that
the streets are kept clear.

The chamber presents a gorgeous ap-
pearance. No finer chamber for this pur-
pose could be found in Canada.

On the foot of the coffin is a large
casket of gold, which is the casket of
the late Premier.

The display of floral tributes is a
magnificent one, consisting of roses, violets,
lilies, and other flowers.

These flowers are many in number and
are tastefully arranged about the coffin.

spoken had not some reference been made to the school system of the city. In 1877 the population of Belleville was about 12,000 and the attendance had kept about the same. The school system had been greatly increased and we have now more children now than then. The vest-ment of the school system was equal to any in the province and he thought no one should think the schools of Belleville without going to see them. The cost of the school system was \$400,000 and he thought it was a very good thing for the city.

Mr. Marshall said that Mr. Willis the city High School would compare favorably with the schools of Brantford and other cities in the province.

Mr. Willis said that other cities may have larger buildings and more schools, but the school system of Belleville was equal to any in the province and he thought no one should think the schools of Belleville without going to see them.

CITY AND DISTRICT.

Kingston's Mayor is all right. The city schools are now in full motion. Lower temperature, but falling night.

Who will be Chairman of the Executive for 1895? Hay and straw were very plentiful on the market today.

Hay and straw were very plentiful on the market today. Bleaching is now going on in the country and wool is coming in quite freely.

The last meeting of the old Board of Education will be held tonight. The Street Surveys have been taken up for the purpose of laying out the new street.

The Ministers met last evening and completed all arrangements for the coming performance. The gold deposits found at Oulph Creek are not richer in value than Dr. Price's Cream Baking Powder.

Forty year blood, tone up the system, and regulate the digestive organs by taking Hood's Sarsaparilla. Sold by all druggists.

The Governor General may be induced to visit Belleville again this year, when he will have a most glorious time.

Count Quatre A.O.F. held his regular meeting last evening, and installed the officers elected two weeks previously, a list of which was given at the time.

The annual case which took place on New Year's night in a restaurant was settled this morning by the defendant paying the costs—\$10—in default two days in jail.

There is to be an investigation at Kingston before Judge Price, of charges, preferred by ex-Ald. Brock, of booting in the Council of 1894 and previous Councils.

If you are thinking of getting a hanging lamp for yourself or a present for a friend, look in at Clark's drug store. We have a large assortment and very cheap.

THE MUNICIPAL ELECTIONS.

THE ALDERMEN Elected IN THE VARIOUS WARDS.

Surprise for Some of the Old Members.—The Free Library by Law Defeated by a Large Majority—Elections Held.

There was no enthusiasm to speak of at the result of the municipal elections last evening, although quite a number of aldermen were down to get the party there, nothing like the old days of the past.

The result was not surprising to the Free Library office, and indeed it was an extra shortly after its close. There was no speech in the City Hall, as the old days of the past.

Words of Wisdom.

Do Not Use Medicine for the Baby; Pure Lactated Food is the Best

Dear mother, in your old slings! Is it not a pity that you should be so weighed? It is, as I am sure that the trouble is with the present diet—its form of nourishment. Our baby is not growing and well fed by the present diet.

Our child requires no medicine, but a good living diet to build it up. Pure Lactated Food does the good work in a way that no other agency can accomplish, and it is the only food that is so easily assimilated by the baby's system.

We commenced using Lactated Food for our baby two months ago. He then weighed 12 pounds, and was four months old, having been very ill with colic, and we were starting him on solid food. We had tried every kind of food, but we had not found any food that would agree with him. We had tried every kind of food, but we had not found any food that would agree with him.

Our child requires no medicine, but a good living diet to build it up. Pure Lactated Food does the good work in a way that no other agency can accomplish, and it is the only food that is so easily assimilated by the baby's system.

We commenced using Lactated Food for our baby two months ago. He then weighed 12 pounds, and was four months old, having been very ill with colic, and we were starting him on solid food. We had tried every kind of food, but we had not found any food that would agree with him. We had tried every kind of food, but we had not found any food that would agree with him.

BETTER THAN A BANK.

A manager of a Bank who had previously shown a handful of polishes upon his own life, was asked the following question:

"Would you put your money in a bank if you had your life to live over again?"

What did "Not 1," he replied, "I should rather put it in a Life Bank."

This, coming as it does from the head of a financial institution, is worthy of your thoughtful consideration, and should you decide that the Banker is right, insure with

A SCENE OF DESOLATION
 Losses By Toronto's Two Fires Reach a Million and a Quarter

Toronto, Jan. 12.—Thousands of streets yesterday greeted the sight of the great fires that broke out on Wednesday and Thursday. The damage was only more clearly than the wide extent of the flames had done, how widespread was the destruction. In the streets were thronged with people, viewing the smoking ruins and the smoke had broken themselves of clouds, from the roofs of the buildings. From the streets, the smoke was rising as Mrs. McEwen's Abbey by moonlight, and mountains of brick and mortar were the proud blocks of masonry. The houses and the streets were deserted, there are now ghosts and tottering walls and a chaos of infinite

retion, all had blazed away with the rapidity of lace curtains or of ornaments in a drawing room grate. The pipes were handsome and expensive, they can be replaced. To repair the damage done all that is wanted is a fair amount of resources, energy and cash; and in pluck, energy and resources were spared by the fire will never be skript.

Careful revision of the losses occasioned by Thursday's fire bears out the statement that the damage will be fully \$50,000 in excess of that of Sunday's. Total loss in the latter has been approximated at \$600,000, the demands made upon the insurance companies

Serving Ice Cream

warm cozy room beside a bright fire with the thermometer outside over 90° or so may indeed be a novelty, but to some it may seem very old-fashioned.

However, we continue to make ice cream all too often.

Notwithstanding the very severe heat of last week the number of calls that came in for Ice Cream was increasing.

Remember you can get it as good, as fast and in the most convenient way by ordering it in July. Back in the 1920's ice cream was the most popular and convenient way to get your dessert. Vanilla, Strawberry, Raspberry, Cherry, Pistachio, Fudgug, &c., also every variety.

FIRE AT MADOC.

MADOC, Ont., Jan. 14.—The Presbyterian Church here was destroyed by fire last night. Loss about \$10,000, insurance \$5,000. Alex. Murray lost his leg badly broken by falling timbers.

The following further details have been furnished by the correspondent:

On Sunday at 3 p.m. the fire alarm was sounded. The fire was discovered in the attic of the Presbyterian church. The church was a fine structure, with a stone roof, a stone wall, and a stone floor.

BETTER THAN A BANK.
A manager of a Bank who had previously shown a handful of policies upon his own life, was asked the following question:

"Would you put your money in a bank if you had your life to live over again?"

"Not I," he replied, "I should invest it in Life Assurance policies on the Endowment plan."

This, coming as it does from the head of a financial institution, is worthy of your consideration, and should you decide that the Banker is right, insure with

Thacker's Book. Daily Intelligence. A YACHTING STORY. IN A.T. QUILLERCOSE

My dear overboard—I beg your pardon (Oh, poor people! They put your pardon with an old Northern & Lyons's "Yacht" Thacker's Book for Christmas. I am sure you could not get more and my weight would be a heavy one. I am sure you would not get more and my weight would be a heavy one. Some people are lucky in finding the right remedy at the right time. A case in point for me. I took three bottles of your valuable medicine, Thacker's Blood Bitters, and now feel all O.K. Some six years ago I took a few bottles of B.B.B. and found it the best medicine I had ever used. I had the best of health until this attack of rheumatism, but now I am glad to say that B.B.B. has made me as sound as a dollar.

A Positive Cure.
Thacker's Blood Bitters cures all diseases of the blood from a common Pimple to the most dangerous Syphilis. It cures Skin Diseases, Boils, Hives, and all Blood Humors caused by bad feeding, overeating, and is worth reading.

THE LATEST HORN OF PARADISE.
A Sketch of Dr. Roux, the Inventor of the Diphtheria Cure.

Dr. Roux has been the assistant of Pasteur for 15 years. Pasteur himself, who has pushed so far all researches relating to hygiene and vaccination against them, is only a chemist. When he came to study human diseases with his peculiar methods it was necessary that he should have a trained physician with him. He applied to Valpierre, who was then at the height of his fame and at the head of the service of medicine in Paris. He chose the young Dr. Roux, who was but an unknown student.

Fortunately the student was of the stamp of Pasteur himself. He is capable of working twelve or thirteen hours per day week after week, and he is anxious to know as he is keen in understanding the results of his observations. He has had a great deal to do with all of Pasteur's studies, and he has been able to contribute to that against diphtheria.

The special point of the study of diphtheria and croup was by a German professor of Berlin, but he was unable to reduce it to a method of practical vaccination. It is this which has been done by Dr. Roux for the last two years. 2,500 deaths assembled together in Paris from all parts of the world several times before he has at last been successful. This is already a great deal in the disease which has been called the world over, the terror of mothers.

In personal appearance Dr. Roux resembles his French master, but he is not so tall, with blood hair, and a small head with only two keen eyes looking out from under his hair. He is always dressed with the utmost sobriety, wearing an ornamental coat of office of the Legion of Honor, which was given him at the jubilee of Pasteur himself. He looks on strange and distrust, and the mention that one is a journalist is sufficient for him to wrap himself in his silence, and he is not to be approached by the press.

The French journals, full of news and gossip, have been full of the great contrast between two men, but they are always great friends. Dr. Roux has never married, being a person of his science. He is a man of his science, and he is a man of his science.

He belongs to the vigorous, peasant race of Auvergne, where he was the scholastic of M. Dupuy, the present Prime Minister of France. The latter is full of news and gossip, and he is a man of his science.

He has passed the whole night watching them. When the poor parents, in the morning, asked what they could give him, the famous physician dashed out of the door and disappeared as if afraid of their thanks. This disinterestedness, which he carries to an extraordinary degree, is known to all his associates of the institute. He is the head of the service, but as the institute is always in want of funds he does not even draw the small salary which is allotted to him. His friends say that he belongs to another age, that he is a man of his science, and he is a man of his science.

He has given up his whole existence to service his humanity. Amongst the good qualities he is absolute devotion to the person of Pasteur, whom he rightly considers his master. He is also one of the best bicyclists in Paris and arrives each morning at the institute on his wheel—Paris Letter in Philadelphia Times.

Care of the Diphtheria.
Women who have rough, unsightly skin, would do well to observe the following rules: Never place your hands in hot or very cold water for any length of time; do not go alone in cold weather; when wet on any occasion whatever, it takes but a second to rinse them off and dry thoroughly on a soft towel, which should always be conveniently near in every kitchen.

A Fatal Attack.
A fatal attack of croup is a frequent occurrence among children. Every household should be guarded by keeping Haysford's Patent Balm at hand. It breaks up colds, coughs, croup, asthma and bronchitis in a remarkable manner.

Stratford has now an all-night electric service.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive grave by neglecting what was only a slight cold. Had they used Bickie's Anti-Consumptive Syrup before it was too late, they would have saved their lives.

Anticongestive Syrup, the best preparation on the market for coughs and colds. About six years ago I caught a severe cold which settled on my lungs, and for three months I had a cough. I had a physician, but he did not give me any help, and I was almost to give up when I was told to try Bickie's Syrup. Bickie had taken me before I had even got to bed, and by the time I had finished the second bottle I was completely cured. I always recommend it for every cold and consumption.

History is talking about getting an electric light plant.

Norway Pine Syrup cures coughs, croup, and colds. Norway Pine Syrup cures coughs, croup, and colds.

Dr. Thomas Holland, Strassburg, N. Y., writes: "I have been afflicted for nearly a year with that most distressing disease, Diphtheria, and at times over it with pain and want of sleep, and after trying every remedy recommended, I tried one box of Bickie's Anti-Consumptive Syrup, and I am now well and believe they will cure me. I am not to be without them for any more."

Robinson and manow larks were seen in Michigan last week.

Dr. J. M. Thompson, N. Y., writes: "We have been using Bickie's Anti-Consumptive Syrup for the best five years we ever used. It is the best medicine I have ever used. It is the best medicine I have ever used."

KNOWLEDGE

Prove comfort and improvement and gain to yourself equipment when you buy. The many who live better and more comfortably by more promptly using the world's best products to increase physical being, will attest the value to health of the pure liquid health principle embodied in the healthy Syrup of Figs.

In excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the kidneys, liver and bowels without weakening them, and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c bottles, but it is manufactured by the J. C. Felt & Co., N. Y., and only those who are in touch with the name, Syrup of Figs, and have seen the bottle, will not accept any substitute if offered.

SUPPORT HOME INDUSTRY.

The Canadian Trade Review complains of the serious drawback to this country in the indifference which prevails to so large an extent to the claims of native industries. It argues that nations, like individuals, are creatures of habit. "If a custom has been prevalent of buying foreign made goods, the habit, the fashion of using them is very difficult to break down. Trade marks of foreign firms have become recognized guarantees of quality, almost to the point of a superstition idea of their having some excellence which no others can rival."

As an illustration, take the case of "Rogers' cutlery." Every person who has an expert knowledge of such goods knows that other manufacturers make knives fully equal to this brand. It is not so many years since a carpenter believed a saw would cut, or a steady steady, unless it bore a brand of one of the famous Sheffield makers. But after a brief, long, and arduous struggle, the brands of makers in this side are now recognized as the assurance of a first-class article.

At one time pianos and organs made across the ocean had a monopoly of the market on this side. Rogers' organs, of this country, has almost a monopoly of the home market. Only a few years ago all these instruments in Canada were either English or American. The prejudice in favor of the foreign article was first destroyed by Rogers' organs. Then came work on the same lines by Canadians, who have had very gratifying success in the last fifteen years in convincing our people that some excellent pianos, rich in tone, quick in action and durable, can be made in the Dominion.

So it has been with cottons, carpets and other textile goods. Canadians have fought hard to establish a reputation amongst our own people for such goods with excellent results. A number of our manufacturers could be named which have done earnest, skillfully directed efforts, our native makers have established, and for which they have secured a firm foothold in our own markets. All these achievements have been won in spite of the obstinate prejudice in favor of foreign goods which habit has created. Canadians are not alone in cherishing such feelings.

At this day there are thousands of ladies going about in the elegance, carrying the brand of French hosiery, stockings, known everywhere by French names, and bought as French goods, simply because of a very old idea that such goods can only be made of the best quality in French factories. Yet these same French goods are largely sold in France, as they are superior to those made in this country. So much for the power of habit and prejudice.

This prejudice seems to our manufacturers difficult to overcome. If our people would only realize a little more how much more successful the well as how important to Canada is this preference of foreign goods, surely because they are foreign. Could not our manufacturers, except in some cases, be made to understand that the French goods to equal those made by foreign lands, there is effort to do through to enable the French goods to equal those made by foreign lands.

GLASGOW WAREHOUSE,
Belleville, January 14, 1895.

Daily Intelligencer.

BELLEVILLE, SATURDAY, JAN. 19.
CITY AND DISTRICT.

The mail train was one hour late to-day. There was a large market this morning. Everything is very quiet in police circles. The ice bridge is now good, and was largely repaired to-day.

The ties are being purchased for the Electric Street railway.

Toronto, late last night, 2 snow showers at 5 a.m. & 7 a.m.

Lovers had eight inches of a snow last yesterday. It came from Belleville.

This is the time of year when Belleville's many fine farmers show up to advantage.

Salt should not be put on the ice on the pavement. It injures the facing. Use sawdust.

The County Council will meet at 2 p.m. on Tuesday, when the Wardens for 1895 will be elected.

Rev. J. L. George will preach at 10 a.m. on Tuesday, when the Wardens for 1895 will be elected.

Cake-makers are busy preparing with Dr. Price's Cream Baking Powder are never over, spoiled or soggy.

Chauncy Asker, broker of marriage licenses, Division Court, Belleville, is at residence over Bennett & Sons' store.

Dyspepsia seldom causes death, but it is a most distressing ailment. Dr. Price's Cream Baking Powder is a most reliable remedy.

Will those who intend to drive for the carnival on Thursday evening next kindly hand their names to the committee together with the character they will represent?

If you are thinking of getting a bagging lamp for yourself or present for a friend, look at Clarke's Patent Bagging Lamp. It is a most efficient and very cheap. Child.

The City Council will meet on Monday at 11 a.m. for organization. The next meeting will be on Tuesday, when the Wardens for 1895 will be elected.

Ald. Falkiner strongly objected to this mode of proceeding and said he would not sit on a Committee track in this way.

On motion the Council adjourned for ten minutes while the committee appointed retired to strike the standing committees. They reported as follows:

ESTABLISH.—Ald. Youmans, Chairman, Ald. Falkiner, Marshall, Robinson, W. H. Gordon, Hart, Clarke, Wille and Staring.

Private Wakes.—Al. Green, Chairman, Ald. Mackie, W. H. Gordon, Walk-er, Jas. Gordon, Doyle, Petty and Lin-

of the Whole on by-laws, Ald. Clarke in the chair.

Mayor Mawdsley appointed W. F. Bessie as the investigator for auditors. Applications for the other auditorship were rejected. T. S. Clark, J. C. Keith, Thos. Thomas, J. N. W. and J. N. W. followed.

The action was settled by ballot and J. C. Keith received the appointment. The salary of the auditors was fixed at \$90.

Rev. J. W. Burks and Henry Pringle were re-appointed High School Teachers. The following were appointed to the

La Roche, Bogart, Walker, Wills, Petty and Green.

WILLS AND GAS.—Ald. Robinson, Chairman; Ald. Mackie, Doyle, Bogart, Walker, Hart and Lundenberger.

HARBOR AND FERRY.—Ald. Marshall, Chairman; Ald. Falkner, Starling, W. H. Moore, R. C. Hulme, Thos. Wills, Jas. Mcghehr, R. B. Cooper and John Pant.

Ald. Walker moved that the name of Dr. Clinton be substituted for that of Dr. Tracy on the Board of Health.

There was some little discussion on this motion and a ballot was taken, resulting

MARKET AND CITY PROPERTY.--Ald. Hay, Chairman; Ald. LaRoche, Jas. Gordon, Staffing, W. H. Gordon, Lundenberger and Grille.

COMMISSIONERS OF REVISION.--Ald. Doyle, Chairman; Ald. Bogart, Yeomans, Lundenberger and Grille.

The Committee of the Whole passed the by-laws clause by clause and read and reported. Report received and adopted.

The by-laws were read a second and third time, passed and numbered 803, 804 and 805.

At a public meeting that evening, the

Chairman, A.H. Falkner, Robert, Yeomans, Hart, Lascombe and Robinson.

Ald. Yeomans moved the following Resolution, as amended by A.H. Robinson, that the report be received—

Resolved, That the report be adopted.

I then motioned that the report be adopted.

Ald. Bogart moved in amendment that the report be not now adopted, but be referred to the Council to be considered: clause by clause.

Ald. Bogart said he did not like the way of doing business. Some of the old farmers had no money.

Resolved, That the report be received, the property of constructing a trunk sewer from a point near the junction of Canfield street with Railway street, to the intersection of the same with the street extending south to intersect the sewer at the corner of Grand street, and from an intersection of the Front street sewer at Bridge street, thence south to a point east of the corner of Grand street, deep water in the Bay of Quinte and to report at next meeting.

Council adjourned until Monday night next.

All. Landenberg recorded the amendment.

Ald. Starling said he had been put on the Executive, and he did not want to be there. He was going to work for the Fire and Water and Gas Committee.

Ald. Landenberg asked if he would resign from the committee on which he had been appointed and remain a free independent member.

Ald. Falkner said he would also retire from the committee.

Ald. Yonason said the committee had

Ald. Robinson said last year Murney Ward had no chairmanship and this year it had two, which was simply leveling the matter up.

Ald. Willis objected to this slate affair, which had been prepared in an unopen

his work during the time they were out. He wanted the report discussed in the committee of the board.

Ald Starling said Ald Yeomans had said the committee had selected the man who was to be the substitute to which they had been appointed. This was untrue. He knew nothing about the working of the Executive Committee. He had heard a deal of experience on the Fire Committee and he was thrown off it entirely. If he

Sold fairly well, strange to say. All should have sold in a day at the
prices we are asking for them. We do not usually sell below cost—'t would seem ridiculous to say we
do in an advertisement. When we do say so we mean every word of it, and
in this one case—PICTURES—in order to clear them all out, they are all
marked 25% below actual cost, or at half price. Just think of it!

Babies

and rapidly growing children derive more benefit from Scott's Emulsion than from any other food they eat. Its nourishing powers are felt almost immediately. Babies and children on Scott's Emulsion when in other form of food is assimilated.

Scott's Emulsion

stimulates the appetite, enriches the blood, overcomes weakness, gives strength to all who take it. For Coughs, Colds, Sore Throat, Bronchitis, Weak Lungs, Emaciation, Consumption, Blood Diseases and All Forms of Wasting. Sold by Druggists. See a B. Scott & Borden, Baltimore. All Emulsion, 50c a B.

Stock, per pound 1.00
Butter, per pound 1.25
Eggs, per dozen 1.50
Wheat, per bushel 1.25
Rye, per bushel 1.00
Corn, per bushel .75
Potatoes, per bushel .50
Sugar, per bushel 1.25

An examination of these figures will convince the most skeptical that the increase in the price of foodstuffs since 1875, upon the whole output of the farm, and it will also indicate the lesson that in most farming the largest profits to be expected on the other hand, the expenditure of the agricultural class, that is to say the cost of living, was never before so low as now. Agricultural implements, lumber, lime, hams, cotton, woolens, and clothing of all kinds, range in price from 25 to 50 per cent lower than in 1875, while wheat and sugar are lower by more than 50 per cent, and coal, oil, which in 1875 was valued at 25 cents a gallon, was imported last year at 71 cents per gallon.

These facts tell their own tale.

BELLEVILLE MARKETS.

Wheat market. The wheat market has had another record breaking year in Chicago during the past week, when it declined to under 50c per bushel, which is the lowest price in the same time last year and the lowest ever known, but maintained a steady upward movement. The States has not affected the market here, but the price has advanced 10c per bushel. The market here has been steady, and the price has advanced 10c per bushel. The market here has been steady, and the price has advanced 10c per bushel.

Daily Intelligence.

BELLEVILLE, WEDNESDAY, JAN. 30.

WEST ALGONA.

By the promise of a dairy station and other "human devices," the Mowat Government has succeeded in winning Wolf Albion by about 20 majority. If the promise of our provincial rulers, all the people, Catholics and Protestants, carried out, it will cost the people-Conservative as well as Grits-a pretty penny for the "victories" purchased by Sir Oliver and his colleagues.

THE MANITOBA SCHOOL QUESTION.

The report of the Judicial Committee of the Imperial Privy Council, according to the Roman Catholic of Manitoba, the right to appeal to the Dominion Parliament for remedial legislation, with regard to Roman Catholic Separate Schools, responds a subject that may prove of an exciting character.

The question resembles that which was raised several years ago in New Brunswick to Separate Schools and later in Quebec as to the "Jumet's Estate Act," namely as to the "constitutionality of the legislation applying to the same."

In New Brunswick and Quebec cases the measure objected to were found to be intra vires of the Provincial Legislatures, and the Dominion Parliament declined to interfere, although petitioned to do so.

In Manitoba case the Privy Council have decided that the Legislature of Manitoba have the power to abolish Separate Schools.

Under these circumstances, so far as they have been made to appear, it is not seen why Parliament should depart from the precedents cited and attempt to force the will of the majority upon the majority of the people in that province, in a matter which is clearly within the constitutional powers of their Legislature.

HOW THE N. P. HAS HELPED THE FAIRER.

The claim that the National Policy is a help to the farming industry is based on three grounds. First, that it reduces the outside competition; secondly, by building up industrial institutions in cities, it enlarges the home market for Canadian farm products; and thirdly, that it helps the export trade.

The first ground is the most obvious, and is proven from the official trade and navigation returns of Canada. In 1878, the last year of a free trade tariff in Canada, the net quantity of oats imported for consumption was 2,071,513 bushels of the value of \$865,141, while in 1893, the last year for consumption was only 44,284 bushels of the value of \$19,886. The Canadian farmers have found not only a larger market at home, but of solid from the depression in prices to which the open market has subjected, and thus exposed them. In the item of wheat and what flour, the figures are not less striking. In 1878 there were 1,519,703 bushels of American wheat, and 311,706 bushels of American grain consumed in the Dominion, as compared with a consumption of 9,969 bushels and 34,007 bushels in the last year; and so on throughout the list, the figures in detail of imports from the United States for consumption being:

COOPER.

Jan. 27th. We had a home since then last Friday night, and Saturday the wind moved and the drift, and the snow.

The country is being flooded with cheap silver spoons, knives and other plated table ware that proves a fraud in a short time. These inexperienced hucksters who get in a little stock of these goods to help out their other trade and chiefly responsible. They may be honest, but they don't themselves know a silver from a tin spoon. Your plan is always to buy from the old established dealers in such goods, who are as familiar with silver of all kinds as the grocer is with this and Sugar. We've handled in a wholesale and retail way for thirty years, the silver ware and spoons, etc., of all the best manufacturers in America. If you want the Rogers 1847 spoon, you can get that here for \$2.75 a dozen. You should see the new DINNER WARE.

Unhindered—Three Boats Launched With Unhindered Ease

Up With Her 700 Tons, the Third Thought to Be Lost—No Canadians on Board

London, Jan. 31.—The North German Lloyd steamship Elbe, bound from Bremen for New York, sank at 6 o'clock yesterday, after colliding with an unknown steamer in the North Sea, fifty miles off Lowestoft.

She carried 240 passengers and 100 officers and crew, 22 survivors of the wreck have been landed and a few others may still be afloat in a life boat. All the other crew lost.

The survivors of the wreck were landed at Lowestoft by the fishing boat "The Flower" at 6:40 this evening. They are: Stollberg, third officer; Neusel, first engineer; Veen, second engineer; Schultze, third engineer; and others.
